THIRD SEER

Achieve Compliance with DORA and NIS2 Through Effective IT Risk Management

Simplify third-party IT risk management, ensure compliance with key regulations like DORA and NIS2, and enhance your overall cybersecurity posture.

Key Features

Continuous Compliance Monitoring for DORA and NIS2

Ensure regulatory compliance through automated, continuous monitoring.

Threat Detection and Risk Management

Identify and mitigate risks in real-time through tailored risk assessments based on unique vendor profiles.

Seamless Vendor Integration

Streamline vendor onboarding with simplified document collection and accurate verification.

Integrated Risk Analysis

Leverage customized questionnaires to gain a detailed understanding of third-party risk profiles.

ThirdSeer is your all-in-one solution for third-party IT risk management. Designed to help organizations meet the strict requirements of DORA and NIS2, our app offers continuous monitoring, seamless vendor integration, and comprehensive risk analysis.
Automate your processes and proactively detect threats to safeguard your business.
